### Allowable Rates for Contractor Owned Equipment Not Listed in Blue Book

The following rates are guidance for the use of Contractor owned equipment on force account or for cost analysis to establish an agreed unit price or lump sum for extra work. This does not include rental equipment which shall be paid at actual invoice cost. The rates below are for the in place usage, not the installation or removal of said equipment. Rates greater than those shown in the table must be justified and documented, at a minimum, with the following:

- Actual paid invoices
- Expected service life
- Salvage value
- Straight line depreciation

These adjusted rates must be agreed upon in writing by the Engineer before the equipment is used. If the rates below are used then no additional documentation is required.

ITEM	RATE
Sheet Pile, Temporary	\$ 0.02 /sft/day
Concrete Barrier	\$ 0.044 /ft/day
Trench Box	\$ 5.36 /hr
Steel Plate 1" thick	\$ 0.13 /sft/day
