# **ProjectWise SS4 Explorer Installation**

External Explorer install 11/06/13 – MDOT PWExplorer install.docx

# **Obtain the installation files:**

### Step #1) Download the installation pack from the web-site

#### Downloading the installation files:

The Installation for ProjectWise SS4 Explorer, can be found on the MDOT FTP site in the MicroStationV8i folder.

External Access to the FTP site is "Read Only".

Open your Windows browser (Right-Click "Start"...Select Browse) and enter the following Into the "Address" field:

ftp://ftpmdot.state.mi.us

browse to the "Documentation" folder ...

Save the zip file to the "C:\BentleyDownloads" directory – Create this folder if it doesn't exist . Note: the file is ~ 500 Mb; depending on your access speed this could take a while to download.

Step #2) Unpack the zip file into a temporary folder.

...

- Use winzip or 7zip, unpack to a local directory. Preserve folder structure.

Step #3) Once the file is unpacked, open the newly created "install" folder you just created.

1) Run the "Setup.exe" install application

 ProjectWise V81 (SELECTseries 4) Client Setups – main menu display NOTE: in order to reduce the size of this install many of the listed installs ARE NOT Delivered here. If an install is needed that is not delivered, the full delivery package can be provided upon request.

S ProjectWise V8i (SELECTserie	es 4) Client Setups	
	ProjectWi	se V8i (SELECTseries 4) Client Setups: Microsoft .NET Framework 3.5 SP1
	Install	Microsoft Core XML Services (MSXML) 6.0
	Install	Office 2007 Primary Interop Assemblies
	Install	DirectX 9.0c Runtime Components
No star	Install	ProjectWise Prerequisite Runtimes
	Install	ProjectWise Explorer
	Install	ProjectWise Explorer with Dgn Navigator Control
	Install	ProjectWise i-model Packager
Bentley	Install	ProjectWise Export/Import Tool
	Readme	Exit
